Therapeutic Exercise Sheet

Exercise Sheet Fabric uses Horse's Body Heat to Keep Muscles Loose and Warm in the Cold

Tight, stiff muscles can be a year-round problem, but colder weather can make it worse. Our Exercise Sheet made of polyester and infused with our state-of-the-art fabric, Welltex, which contains ceramic powder, reflects your horse's body warmth and creates a soothing far infrared thermal heat. Suddenly, your cold-backed horse can swing freely again. Horses with shoulder and back muscle soreness respond positively to this natural heat therapy. Our Exercise Sheet is an ideal tool to prevent injuries or to help an injury heal. Use while you warm up your horse or throughout your entire ride. Exercise Sheet fastens over withers and comes with tail cord. Not for use on pregnant mares.

Sizes (in inches): 75, 78, 81, and 84. Color: Black. Machine washable up to 90°F or 30°C. Use normal detergents that do not contain bleach or fabric softeners. Air dry only, do not tumble dry.

Back on Track products are not to be compared with magnetic therapy. The effectiveness of Back on Track's thermal heat therapy has been established by medical science. For more information see <http://www.backontrackproducts.com/studieshorse.html>.

Therapeutic Quick Leg Wraps

Easy On/Off Leg Wraps Reflect Horse's Body Heat, Reduce Swelling without Liniment or Poultice

Our Quick Leg Wraps are easy to use and safe, even if you're inexperienced with wrapping legs. Constructed of a neoprene outer shell that encloses a pillow wrap, use the attached Velcro™ strips to quickly fasten and adjust the snugness of the wraps. We infused the wrap's material with our state-of-the-art material, Welltex, which contains ceramic powder. Welltex reflects your horse's natural body warmth and creates a soothing far infrared thermal heat. Heat therapy is a well-recognized method used to relieve and heal injured muscles, joints, and tendons. When you wrap your horse's legs with these wraps, our unique fabric creates gentle heat, which decreases swelling and softens or completely reduces wind puffs without the use of liniment or poultice. Do not use additional bandages with Quick Leg Wraps. Use them as is in place of standing wraps. You'll notice immediately how tight your horse's legs look. These leg wraps are ideal for injury recovery or prevention. Not for use on pregnant mares.

Sizes (in inches): 12, 14, and 16. Color: Black. Machine washable up to 90°F or 30°C. Use normal detergents that do not contain bleach or fabric softeners. Air dry only, do not tumble dry.

Therapeutic Socks for Men and Women

Our Socks' Fabric Reflects your Body Warmth, Improves Circulation and Reduces Pain

If you suffer with foot problems such as poor circulation, pain, or inflammation, or you just like warm feet, you'll want to try our socks. Constructed of our unique fabric Welltex that's infused with ceramic powder, our socks reflect your natural body warmth and create a soothing far infrared thermal heat. This gentle heat improves circulation, eases pain, and reduces swelling. Initially, we recommend that you wear our socks during the day to get used to the warmth that they reflect. Since you move around more during the day, the socks will reflect that much more of your body warmth. Once you're comfortable with them, you may find that you'd like to sleep with them at night as well. Our socks are ideal for people with Diabetes. Or you could just wear them for additional warmth. Please do not wear if you are pregnant or plan to become pregnant. Back on Track does not make any medical claims. Check with a physician before use if you have any special conditions.

Sizes: Small (up to 7), Medium (7.5 to 9), and Large (9.5 to 12). Color: Black. Machine washable up to 90°F or 30°C. Use normal detergents that do not contain bleach or fabric softeners. Air dry only, do not tumble dry.

Therapeutic Ankle Brace

Our Ankle Brace's Soft Heat Therapy Reduces Swelling and Relieves Pain

Our Ankle Brace is ideal for relieving pain or reducing swelling due to ankle strains or sprains. Constructed of our unique fabric Welltex that's infused with ceramic powder, this Ankle Brace reflects your natural body warmth and creates a soothing far infrared thermal heat. This gentle heat improves blood flow to the injured area, which reduces swelling and pain and hastens the healing process. We designed the brace with a detachable, adjustable elastic band so as swelling goes down, you can adjust the fit of the brace. Our Ankle Brace also provides support to the ankle. We cut away Our Ankle Brace at the heel, leaving that area exposed. If your injury or pain involves the heel, we recommend that you use our therapeutic Socks instead, as they cover the heel so the ceramic powder can come in contact with it. Please do not wear if you are pregnant or plan to become pregnant. Back on Track does not make any medical claims. Check with a physician before use if you have any special conditions.

Colors: Grey or Black with Straps. Sizes: S, L, XL (Black w/Straps), S, XL (Grey). Machine washable up to 90°F or 30°C. Use normal detergents that do not contain bleach or fabric softeners. Air dry only, do not tumble dry.
